Other Business:

1. Need a social coordinator for village? Is someone who would coordinate social events and other community activities.
2. Discussed "tyvek" house. Nothing has been done regarding contacting the homeowner about status/plan for house. Discussed what authority we have as a village to enforce. We would need to pass legislation to enforce. Will look into other municipalities' (including Kensington) legislation and possibly beef up our regulations. There may be some model legislation that can be used. May want to review other areas of regulation to amend while we're in the process.
